

**“Be part of setting up Niagara Falls’ largest domino course ever.  
Help us knock down hunger.”**

Your team will set up a course of boxes containing food (e.g. Kraft dinner, cereal, pasta, etc) on a track and adjoin to another team’s course to set up a “domino effect” which could possibly set a Guinness World record ... better still a Niagara Project Share record!

## CONSTRUCTION

We suggest a team consisting of 6 (2 adults and not more than 4 youth) due to area constraints. **It is a great opportunity to get your youth involved in a great ministry.**

We recommend setting up trials at your home church before coming to Glengate.

- ✓ It will boost enthusiasm
- ✓ It will build your teams creativity
- ✓ It will help you understand how the boxes will fall
- ✓ It will help you design a unique course

A large amount of boxed food will be required to set up your course. We recommend your team set up early prior to event start. Doors open at **9:00 am** and all food boxes must be at Glengate by this time. Each team will complete their section of the course by **noon**. You will be assigned a footprinted area to set up your course 1-2 week prior to the event.\* Each course will be connected so the “domino effect” will flow from start to finish. Each team will be responsible for assisting with the clean up of their knocked down boxes and transporting food to the Project Share truck at ending.

## BE CREATIVE! HAVE FUN!

For more information on this event, please contact Les Flasko at 905-357-6569.

**Please register by contacting the registrar at 905.295.4231 by March 30, 2009.**

\* Your footprint will be determined by number of entries. Note that a weight restriction is in place due to floating floor capacity.
